

PRODUCT INFORMATION

- rath's pr88, the classic skin protection for oily, greasy and tough dirt.
- Apply to the hands before starting work. The cream forms a reliable protective film that prevents dirt particles from penetrating the skin.
- rath's pr88 makes it easier to cleanse the skin. The dirt is simply washed off with the protective film

**rath's
pr88**

Hand protection
that you simply wash off

Application range

Oily and greasy dirt
Tough dirt

rath's pr88 protects the skin against dirt from oil, grease, paint, graphite, rust, dust, tar, adhesives, artificial resin, polyester, silicone etc.

Application and dosage

Apply

Carefully rub a hazelnut-sized amount (approx. 2-3 ml) of rath's pr88 into the hands - particularly into the fingernails and nail beds - before work, and leave to dry.

At work

A dry, stretchy protective film, that still allows good grip, protects the skin against dirt.

Washing off

After work, wash the hands by gradually adding water until the dirt loosens. Then rinse thoroughly and dry. The dirt is rinsed off together with the rath's pr88.

ADVANTAGES

The classic hand protection for over 50 years

- Simple application
- Short drying time
- Non-sticky
- Good tool grip
- Dexterity is maintained
- Very high protection potential during work
- Facilitates skin cleansing
- Free of preservatives and silicone
- Very good skin compatibility - dermatologically tested

pr88

Skin protection cream

Proof of effectiveness

Verification of the efficacy against lipophilic toxicants in the BUS skin protection test.

Tested by: Dr Pittermann in collaboration with the Institut für Pharmakologie, Toxikologie und Pharmazie der Tierärztlichen Hochschule (Institute for Pharmacology, Toxicology and Pharmacy of the Veterinary University, Hanover) (Prof. Dr M. Kietzmann).

Result: The effective protective performance of rath's pr88 was verified through the single and multiple application of the model toxicants n-octane and the non-water-miscible model-cooling lubricant (KSS) Type II and Type III.

Skin compatibility

Tested by: Dermatest GmbH – Research Institute For Reliable Results, Muenster.

Result: rath's pr88 passed the dermatological inspections on humans conducted by specialist doctors with a "very good". No toxic-irritant incompatibility reactions occurred in the epidermal test according to international guidelines.

Inhaltsstoffe/Ingredients (INCI)

Aqua, Glycerin, Sodium Silicate, Sodium Tallowate, Cetearth-25, Paraffin, Sodium Cocoate, Sodium Hydroxide, Sodium Chloride, Tetrasodium Glutamate Diacetate, Sodium Thiosulphate, Parfum
